

## **CarbonCure Statement on Fire Rating for Concrete Masonry Units**

To Whom It May Concern,

This is to advise that the CarbonCure™ Masonry Technology does not impact the fire rating of any concrete masonry product made with the CarbonCure™ Technology.

CarbonCure™ sequesters waste carbon dioxide from local industrial facilities into concrete masonry units. This mineralization process does not affect the fire rating. Current fire rating technical data for a concrete masonry unit is still applicable.

Sincerely,

Kevin Cail  
Chairman of the Scientific Advisory Board  
CarbonCure Technologies
